https://www.youtube.com/watch?v=-XQcnO4iX_U

Table of Contents

Testicular Anatomy 1:53

Sperm Production 2:07

The Influence of Gonadotropin and Testosterone 3:24

How Sperm Mature and Leave the Body 5:35

Glandular Secretions During Ejaculation 6:45

Discussion/Comments:

- 1 - videos had a lot of information (it was medically accurate and interesting)
- 2 - the info comes at you too fast and is overwhelming
- 3 - terminology is over the head of most high school students
- 4 - Most of this stuff, although interesting, is not going to be on the test (kids had anxiety about this and what would be tested content)

- 5 - Some of the humor was targeted for adults (put it all on black, sexy time, etc)
- 6 - Nobody was sure how this would add value to what was already being taught
- 7 - Info was "nice to know" as opposed to "need to know"

So..... the board does NOT RECOMMEND using those videos. The teacher that brought them forward will be notified.

- 4. Update on virtual training for staff and parents/community
 - a. https://www.chippewavalleyschools.org/downloads/community_relations/its_that_easy_jan_2021.pdf
 - b. Just Around the Corner for Girls – Jan 2021 (6 sessions total)
- 5. Incident review with resolution – all agreed that it was handled well
- 6. Plan to ensure ALL required students receive mandatory HIV lesson (Sarah Thompson)
- 7. Special Education Update (Natalie Ptak) Discuss doing a comprehensive all day session in person
- 8. Next meeting April 27 at 7pm
