

A Message from the Superintendent

Dear Friends,

It is an honor and a privilege to watch your children learn and grow as they advance toward college and careers. Inside this edition of the Vision newsletter, we celebrate the many accomplishments of our students and staff as we look forward to another successful school year at Chippewa Valley Schools.

We are committed to building on our record of success, such as maintaining our 95 percent graduation rate. Our graduation rate is 10 points higher than the state average, and consistently outpaces countywide graduation rates.

We remain committed to providing cutting-edge opportunities in Career and Technical Education and Science, Technology, Engineering and Math (STEM). These opportunities provide our students with real life, on-the-job experience that gives them a leg-up on the jobs of the future.

We look forward to building on our proven track record of fiscal responsibility. Chippewa Valley Schools regularly receives "A" ratings from independent experts for its sound fiscal management, and has received a perfect fiscal wellness score from the country's top school finance rating organization for five years straight.

We can't rest on our laurels, however, especially when it comes to student safety.

Keeping our students safe has never been more important, and our top priority at Chippewa Valley Schools is the safety of our students, staff and families.

With that in mind, we recently conducted a building-by-building security assessment across our district. The results indicated we are doing many things well regarding student safety, but that more can and should be done.

Our district works hard to keep pace with best practices for school safety. The nature of school safety continues to evolve, and our district must continue to adapt. That is why we have engaged our community on this important topic, including through a series of public meetings and a tele-town hall.

Throughout this process, our community members and parents have told us their top priorities are school safety, giving our students the skills they need to be successful, and making sure our school district remains fiscally responsible and strong.

In response to the feedback we received from our school community, we worked to develop the Safe Schools, Strong Schools proposal. The proposal is designed to keep our students safe by funding important security improvements without raising the current tax rate for our residents. We have included information in this newsletter for your review. You can also learn more on our website, chippewavalleyschools.org/safeschoolsstrongschools.

Again, our number one priority at Chippewa Valley Schools is providing a safe learning environment for all students and staff. As always, it is an honor to serve as your superintendent.

Sincerely,
Ron Roberts,
Superintendent

Chippewa Valley Schools Announces Safe Schools, Strong Schools Proposal

Keeping our schools safe, giving our students the skills to succeed, and making our community strong is the focus of a bond proposal recently approved by the Chippewa Valley Schools Board of Education. The Safe Schools, Strong Schools proposal will appear on the Nov. 6, 2018, ballot.

“Keeping our students safe has never been more important, and we’ve heard loud and clear throughout our community that safety must be our top priority at Chippewa Valley Schools to keep our students, staff and families safe,” said Beth Pyden, CVS Board of Education president. “The Safe Schools, Strong Schools proposal invests in security enhancements to keep Chippewa Valley Schools students safe before, during and after school.”

An independent, building-by-building review of current security features at Chippewa Valley Schools was conducted in April of this year and included an assessment of physical barriers and other school safety measures. The districtwide security analysis found the district has kept up to speed with security and safety best practices, and that more needs to be done to prepare for new possible threats as the nature of school threats continues to evolve. If passed, the Safe Schools, Strong Schools proposal would:

- Fund security enhancements at existing buildings and facilities to help keep Chippewa Valley Schools safe for current and future generations of students and staff.
- Replace older buses and repair or replace aging roofs, plumbing and mechanical systems and other infrastructure and other necessary repairs to keep our kids safe, warm and dry.
- Provide state-of-the-art instructional technology and increased access to Career and Technical Education programs, giving students real life, on-the-job experience and a head start on careers.

The Safe Schools, Strong Schools proposal would not cost taxpayers one extra penny on their current tax bills. The proposal supports critical school safety, security and technology improvements without raising the millage rate.

Fiscal responsibility is a key part of keeping our schools strong, and Chippewa Valley Schools has received a perfect fiscal wellness score from the leading school finance rating organization for five years straight, and the highest possible rating on independent audits every year.

If passed, all spending will be tracked and available on a public website to ensure taxpayer dollars are spent wisely.

“Strong schools attract talent, new families and innovative small businesses to our area that make our local economy strong and help continue Macomb County’s economic comeback,” said Ron Roberts, CVS Superintendent. “Strong schools also keep our property values and home values strong, making our area a great place to live, work and raise a family.”

To learn more about how Chippewa Valley Schools is making our schools safe, giving our students the skills to succeed, and making our community strong, visit www.chippewavalleyschools.org.

1. What is the Safe Schools, Strong Schools proposal?

The Safe Schools, Strong Schools proposal is a bond proposal that will appear on the Nov. 6, 2018, ballot. The \$97 million proposal would fund security enhancements at existing buildings and facilities, and provide students with the skills needed to succeed in college and 21st century careers.

2. When will the proposal appear on the ballot?

The Safe Schools, Strong Schools proposal will appear on the Nov. 6, 2018, general election ballot.

3. Where will the money go?

This proposal would:

- Fund necessary security enhancements at existing buildings and facilities that would help keep Chippewa Valley Schools safe before and after the school bell rings.

- Replace the oldest buses and replace aging roofs, plumbing and mechanical systems and other infrastructure necessary to keep our kids safe, warm, and dry. For a list of improvements visit: chippewavalleyschools.org/safeschoolsstrongschools.
- Provide state-of-the-art instructional technology and increased access to Career and Technical Education programs, giving students real life, on-the-job experience and a head start on careers so they can compete for jobs.

4. Why are we discussing school safety now?

An independent analysis showed that while Chippewa Valley Schools is doing many things well on student safety, more can and must be done to face continually evolving school threats. Security enhancements at existing buildings and facilities are needed to help keep Chippewa Valley Schools safe for current and future generations of students and staff.

5. How does improved school safety benefit our community?

Strong schools mean strong neighborhoods and higher property values and help attract new families, businesses, and talent to our area. Safety is more than a school issue; it's a community issue.

6. Why do we need improved technology?

Technology is evolving rapidly. To avoid falling behind, Chippewa Valley Schools students must have access to technology and Science, Technology, Engineering and Math (STEM) instruction to help prepare them for the competitive 21st century workforce.

7. Do safer schools contribute to better student performance?

Providing a safe, secure learning environment for all students, teachers, and staff is a key step toward providing a high-quality education that prepares our students for college, careers and bright futures.

8. Would this proposal raise taxes?

No. The Safe Schools, Strong Schools proposal will not raise taxes. The proposal will not cost taxpayers one extra penny on their current tax bills. If the Safe Schools, Strong Schools proposal passes, every dollar spent will be tracked and available on a public website to ensure transparency, accountability and that taxpayer dollars are spent wisely.

9. How does the proposal support these important projects without raising taxes?

By extending the duration of our current bond repayment millage, this proposal allows us to fund necessary improvements without raising taxes. If the Safe Schools, Strong Schools proposal is approved by voters, the district's millage rate will remain at or below the current level.

Tele-town Hall Results Show School Safety is a Top Priority

“How important is school safety to you?”

Of a total 179 respondents,

- 166 answered, **“Very important and should be a top priority”**
- 10 answered, **“Important, but not a priority”**
- 2 answered, **“Not important”**
- 1 answered, **“Somewhat important”**

“How would you rate safety at Chippewa Valley Schools?”

Of a total 160 respondents,

- 83 answered, **“Somewhat safe”**
- 65 answered, **“Very safe”**
- 11 answered, **“Extremely safe”**
- 1 answered, **“Unsafe”**

“Which of the following security enhancements would you most like to see?”

Of a total 162 respondents,

- 68 answered, **“More outside entry barriers”**
- 46 answered, **“Stronger classroom doors”**
- 26 answered, **“More panic buttons”**
- 22 answered, **“More school cameras”**

 Algonquin Middle School – October 18, 2018 – 7 p.m.

Chippewa Valley Receives an A+ for Fiscal Responsibility

At Chippewa Valley Schools, we believe fiscal responsibility is a key component of keeping our schools and our community strong.

Chippewa Valley Schools is one of only two Macomb County school districts to receive a perfect score from Munetrix for five consecutive years. Munetrix offers data management, analytics and reporting tools for states, local governments and public school districts. The perfect Munetrix score is based on the latest available audited school district data provided by the Michigan Department

of Education. The perfect score is the highest rating possible for a school district when measuring operations performance, financial management, and enrollment trends.

Chippewa Valley Schools continues to receive the highest possible rating on its independent audits each year. In fact, audit professionals point out that Chippewa Valley spends almost 5% more on classroom instruction than the statewide average of Michigan school districts, and 2% less on administration and business services costs.

Erie Teacher Named Macomb County Elementary Teacher of the Year

Each year, teachers are nominated by their peers for Chippewa Valley's Outstanding Teachers of the Year award. These teachers have achieved the highest standards of excellence and are recognized for their ability to inspire, engage, and motivate their students to learn. They are recognized at a countywide awards ceremony and by the CVS Board of Education.

Patricia Santilli, Erie Elementary 4th grade teacher, received the *CVS Outstanding Elementary Teacher of the Year* award and was named the *Macomb County Elementary Teacher of the Year* by the Macomb Intermediate School District (MISD). The MISD selection committee reviews nominations from all 21 Macomb County School Districts. This year 66 teachers from across the county were nominated for this prestigious award. Santilli's colleagues had many great things to say about her. "Her love of teaching creates an energized classroom dynamic where all students are engaged in learning." A parent said, "Mrs. Santilli is truly a wonderful role model for her students. She has empowered my daughter, making her feel confident. She makes every student feel special and celebrates their successes."

Elizabeth Skawski, Wyandot Middle School teacher, was named the *CVS Outstanding Middle School Teacher of the Year*. She was nominated for the award for her "dedication to creating life-long learners." She is active in many school activities at Wyandot including the bowling club and producer for the annual musicals. "She works tirelessly and enthusiastically to engage her students, fostering their interest not only in the content areas in which she teaches, but in the greater world around them. She cares for her students beyond their academic success and understands her role in creating a classroom climate rooted in mutual respect where students encourage, support, and demonstrate compassion for one another."

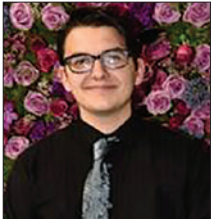

Chris Hull, Chippewa Valley High School Physical Education and Social Studies teacher, received the *CVS Outstanding High School Teacher of the Year* award. His colleagues say, "He loves teaching all aspects of physical fitness and healthy living in his courses. He demonstrates his commitment through teaching, coaching three sports, personal training and community involvement." A current student wrote: "Mr. Hull is dedicated to seeing his students succeed in his class and throughout life. He has a personality that everyone wants to be around that's filled with joy and laughter... A man who encourages others to be the best they can be."

New Traditions

Schools across the district invited their former students back to be recognized at graduation time. It's a great opportunity for the high school students to re-connect with staff and inspire our youngest learners with their accomplishment.

Congratulations to **David Volpini**, a student at Chippewa Valley High School, for winning a \$25,000 Scholarship! David was awarded first place in a competition sponsored by the National Endowment for the Arts and American Theatre Wing Musical Songwriting Competition. Hundreds of students from across the country submitted their original musical theatre compositions for review by Broadway professionals. The top six traveled to New York. Broadway musicians performed the work of each finalist and a panel of judges voted on the winner. David was awarded first place!

CVS Educators Receive Top Honors in the County

Kristen Gersch, Special Education Teacher, Cheyenne Elementary School, received the "Make a Difference" Award from the Macomb Intermediate School District. This annual award is given to an educator that has made a significant difference in the life of a special needs student. Three Chippewa Valley families nominated Gersch for this outstanding recognition. In their nomination forms, each family described the strong connections she develops with her students and their families. Gersch has been a CVS teacher since 2013 and is an asset to the Cheyenne Elementary team. Her kind, gentle and warm personality is apparent through the many relationships she has fostered over the years.

Beth Pyden, President, Board of Education; Pam Torrence, Special Services Admin. Intern; Kristen Gersch, Teacher, Cheyenne Elementary; Tara Koch, Director of Special Services; and Mark Johnson, Principal, Cheyenne Elementary School, attended the award ceremony.

This is not the first time a CVS employee has received this prestigious award. Last year, **Jennifer Haralampopoulos**, Paraprofessional, earned the award for her professionalism, dedication, and hard work for providing excellent service to the same student for eight years.

Chippewa Valley Schools CTE students presented Macomb County Sheriff Anthony Wickersham with a special hand-crafted Thin Blue Line Flag for the lobby of the Sheriff's Department. This community service project by our Michigan Industrial and Technology Education Society (MITES) Club commemorates our fallen law enforcement officers.

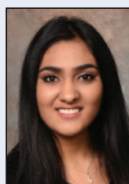

Claire Brisson, Director of CTE, Chippewa Valley Schools; Students John Jayko, Ryan Sebesta, Anthony Iacobelli; Sheriff Anthony Wickersham; Students Matt Steger, Vince Pallazzolo, Ashley Vissotski; and Chad Campau, Woodworking and Cabinetmaking Teacher with the flag.

Class of 2018

We salute the top students from Dakota High School, Chippewa Valley High School, and International Academy of Macomb Class of 2018. These students received the highest honor of Summa Cum Laude.

CVS Students Shine in Science Olympiad County Competition

Six Chippewa Valley elementary schools placed in the top ten during the countywide Science Olympiad tournament held on May 19th. A total of 47 sets of metals were awarded to our 12 elementary schools. Teams placing in the top 10 in Macomb County included: Sequoyah, Cheyenne, Shawnee, Fox, Miami, and Ojibwa Elementary Schools.

Middle and high school students participated in the regional tournament bringing home 67 sets of metals. Iroquois and Seneca Middle Schools competed in the state finals at Michigan State University. Iroquois Middle School students Alexander Horetski and Rachel Schneider brought home 6th place medals in the Wright Stuff competition. Congratulations to Kimberly Lolich, District Coordinator, all of our coaches, parents, and students!

Sequoyah Elementary School, 2nd Place

Fox Elementary School, 6th Place

Shawnee Elementary School, 5th Place

Miami Elementary School, 8th Place

Cheyenne Elementary School, 4th Place

Ojibwa Elementary School, 9th Place
