

Dear Staff and Faculty:

We are pleased to announce that **Chippewa Valley Schools** is now offering a Student Life Advisor Program beginning **1/1/2023**. At **Chippewa Valley Schools**, we recognize that our students may be struggling with numerous challenges in their home or school, and that these challenges can have a negative impact on their day-to-day functioning, and ultimately the quality of their lives. We believe that an investment in our student's well-being is a sound investment for **Chippewa Valley Schools**. To ensure that the best possible services are available to our students, **Chippewa Valley Schools** is partnering with Ulliance, Inc., a nationwide provider of student assistance services with 30 years of experience.

The Ulliance Student Life Advisor Program is designed to help our students cope with personal, home, and school challenges that they may encounter from time to time. For example, a child might need assistance dealing with a bully, avoiding peer pressure, or making new friends in a new school or in the neighborhood. Ulliance provides a variety of services to meet their needs, including short-term counseling, crisis intervention, and identification of community resources.

How do you link a student to Ulliance? Refer any student that would benefit from the services to the Guidance office in the district. The district office will then determine if the Student Life Advisor Program is the best fit for their needs.

The Student Life Advisor Program also includes a robust student/parent portal full of videos, articles, and information to address all areas of well-being. You can refer any parent or student to **StudentLifeAdvisor.com** to find out more. They will log in with their school's name and city. In addition, the program is **confidential and no cost** to students. A parent/student can access services, including 24/7 crisis assistance, by simply calling **1-800-448-8326 directly**.

Again, Ulliance Student Life Advisor services begin on **1/1/2023**. A comprehensive overview of services included in the Ulliance program will be provided soon.

It is our hope that our students will take advantage of the services the Student Life Advisor has to offer.

Sincerely,

Chippewa Valley Schools
