

Chippewa Valley Schools
Sex Education Advisory Board
January 11, 2022

Present:

Stephanie Lange
Rachel Sparks
Nick Malburg
Meganne Gleason
Renai Edwards-Malayil
Allison Bonacci
Mr. Bohannon
Christina Noelle
Alycia Lechkun
sara orris
Cindy Phelan

1. Membership/vacant sectors –
 - a. New parent co-chair is Renai Edwards-Malayil
 - b. We need to recruit new students. Teachers will reach out to students to try to engage. If we cannot get active student members, we will consider seeking student input on materials or activities via existing student groups.

2. Sexually Explicit Materials workshop – February 3, 90 minutes
 - a. Hybrid in-person and Zoom event. Stephanie will inform those that sign up for in-person of the current mask requirement.
 - b. Several members of the SEAB will present different sections of the workshop. Rachel gave a quick run down of the content and requested feedback. Members felt the workshop is relevant and necessary. Suggestions were to include an evaluation, and to potentially record so that it can be a resource for people that could not attend, focusing on teaching but leaving out break-out groups and discussion among participants.
 - c. Invite will go out as a spotlight for district event emails.
 - d. Children will not be allowed to attend.
 - e. 20 people already signed up.

3. Sex Education Guide for District
 - a. An all-in-one guide that would be available on the district website for reference.
 - b. Includes items such as: purpose, philosophy of program, state laws and best practices, needs assessment process, resources to pick and evaluate curriculum, inclusivity toolkit, professional development, parent rights/opt-out letters, contacts, resolving questions

and problems, Expectations for the SEAB, administration, teachers, students, parents, guest speakers, district nurses, etc.

- c. SEAB will need a sub-committee to complete this extensive document in the coming months – desired completion for next Fall semester.
4. Work Plan 2022-23
 - a. Need to complete process index for sex education in district
 - b. Stephanie will coordinate get index created into a “forms” document so SEAB members can complete electronically.
 - c. Reviewed materials on district website
 - d. Really only need more opportunity to check-in with the board. COVID has made it difficult over the past 2 years, so we are a little behind on that task (like every other district for the same reasons).
 5. Next: develop/complete workplan and get students involved
