- This week, administration will be working on concepts as the district begins to consider face-to-face instruction.
- Thanked the Technology Department for all they did to move the district to remote learning.
- Addressed the Extended COVID-19 Learning Plan. Indicated the Board would be receiving the plan for consideration to approve at the September 28th meeting.

Curriculum Reports

- Dr. Donald Brosky (Asst. Superintendent, Educational Services) presented the educational goals which are a component of the Extended COVID-19 Learning Plan. This will be adopted at the September 28th Board meeting.

Of and by Board Members

- Member DeMuyneck Zech agreed with many of the parents that spoke this evening by expressing the difficulties that her children are having with remote learning. She applauded the efforts of the teachers but believes that children are missing their friends and socialization. She understands the need to keep children safe but asked Board Members to discuss a return to in-person learning more frequently than every two weeks.

- Member Patzert agreed with Member DeMuyneck Zech and stated his belief that students should be in school. He indicated feeling especially bad for those children in K-5 and those with special needs.
- Member Aquino thank the parents that spoke and indicated that the Board is listening to them. She has been assisting her two grandchildren with remote learning and it has been positive thus far. She supported starting remotely due to COVID numbers in the county at the time. She indicated her support for elementary and special needs children returning to in-person. Member Aquino commended the staff and the technology department for the effort put forth in opening remotely. She assured parents that the Board will work towards getting the kids back in school as quickly as possible.
- Member Cardamone agrees with the other board members and she, too, voted to start the school year remotely to keep the students and staff safe. Ms. Cardamone struggled with the idea of trying to keep all kids 6 feet apart from each other in a school setting. Ms. Cardamone emphasized she hopes to get into a situation where all kids are back in the buildings, especially the lower elementary and the special needs students. She has concerns with the videos seen on television with other high schools and colleges and how quickly the numbers go up. Ms. Cardamone is asking that the Board of Education conduct a special meeting or board workshop before the next regular board meeting on September 28th.
- Member Pyden indicated she agrees with the other board of education members and made peace with the decision to start school remotely because the affects of under-reacting could be much worse. Ms. Pyden wanted to clarify some of the inaccuracies spoken about and indicated that of the 21 Macomb County districts, only 5 districts returned to in person instruction and one of the districts has already changed their decision. Port Huron schools were back for 3 days and had to close 3 schools. Ms. Pyden indicated in-school learning is best for everyone but, it has only been a week. She emphasized we need to afford each other a little grace during this time. Staff has worked so hard to keep students first. The process to bringing kids back to school should be done slowly and with extreme caution, as we watch the districts around us.

- President Bednard thanked all parents for being very respectful. He indicated it was a tough decision to make and some of the parents who addressed the board of education made comments about things that are not true. The decision was not made lightly. Macomb County was going up in cases and heading in the wrong direction up to the first day of school. He felt tech issues were to be expected, the district never imagined remote learning to be for all time. At the time of the decision, the board looked at the plans for the PPE for in-school learning and did not feel comfortable going face-to-face at that point. Going forward, we will continue to look at the data and scientific numbers coming out. Again, thanked the parents for coming forward. President Bednard asked the Board Members to meet on Monday, September 21, 2020, for a special board meeting to discuss the return to in-person learning.
- Member Sobah wanted to add that every one of the Board of Education members know that face-to-face instruction is the best way to learn and feels with over 15,000 students, plus staff and families, the board of education did what they thought was best for everyone. Not one of the board members feels that face-to-face instruction is not important but had the health of the entire community to think of.

MOTION #09/18/20 – Moved by Member Cardamone and supported by Member Pyden that the meeting be adjourned into Executive Session (*8.c. – Negotiations*).
