ACADEMIC COSTUME AND PROCESSION

Academic costume is worn in the United States by persons taking part in academic ceremonies in general, at commencement exercises, at baccalaureate services, and at various inauguration ceremonies, such as the installation of a president, the conferring of an honorary degree on a distinguished guest, or the laying of the cornerstone of a building.

The institutions awarding degrees, the nature of degrees, and the major fields of knowledge represented by the degrees can be readily identified by the design and colors used.

GOWNS: The Bachelor's gown is black, similar to that of high school graduates. The Master's gown is also black but has long pointed sleeves. The Educational Specialist's and Doctor's gowns are most usually black with three horizontal velvet bars on each sleeve.

CAPS: The square Oxford cap "mortarboard" of serge or broadcloth, with a stiff crown, is traditionally black. Once the baccalaureate degree has been conferred, the tassel is worn on the left side.

HOODS: The greatest degree of symbolism is shown by the hood. The size and shape of the American hood marks the college degree attained by the wearer. The lining of the hood is indicative of the college by which the degree was granted. (If more than one color is used, one color is generally arranged as a chevron upon the other.) The velvet trim of the hood indicates the major field of study.
